

# The economics of nature-based solutions.

Funded by  
the European Union

Invest4Nature is a research and innovation project with the aim to better understand the multiple benefits and financial performance of nature-based solutions - one of the key measures to tackle the climate and biodiversity crisis. By filling this data gap, Invest4Nature prepares the ground for investments which are needed for a broad implementation of nature-based solutions.

Insights will be drawn from 5 existing cases with implemented nature-based solutions in urban, rural, mountainous, fluvial and coastal landscapes across Europe.

#### **Invest4Nature in a nutshell:**

---

- Duration: July 2022 – June 2026
- 15 partners from 11 countries
- Funded by the Horizon Europe programme of the European Union

#### **Connect with us!**
